1. INTRODUCTION

The report complies to SOP “Where is MY Cargo” and presents a detailed view. The trip will be detailed through all it’s itinerary. Based on the presented data improvement can be suggested.

2. OBJETIVES

Bellow our objectives:

- Evaluate the procedure compliance during all phases WIMC operation.
- Evaluate each aspect of the WIMC operation by the light actual market practices.
- Submit improvement ideas.

3. OVERVIEW

Where is My Cargo operation targets to provide full monitoring service packs, as well as act in order to track an recover the cargo in case of an event, such as lost or steal.

Departing from many freight forwards, the actual client base of WIMC is mainly to track deliveries to Paraguay. Most of the departures is SEA modal mainly, with road trips at the last mile. The cargo departures mainly from Asia and USA, with some departures from other places like Europe or Medium East.

The inovation form Where is My Cargo’s services is to join trip monitoring with intelligence support decision and cargo recuperation in case of theft.
